

Here are your FREE resources!

Hi! So here are your resources to accompany the book!

First, download the workbook, found here in this section. There are exercises here that will help consolidate the content in the book. All the DIVA Challenges will be found here, as well as many of the checklists and some thought-provoking exercises to help you prepare for your next speech.

Each chapter has a very short video summary. These will give you a super quick, 1-2 minute overview. If the content seems interesting you can then read the chapter fully.

Chapter 10 contains a bunch of extra videos and audio to help you prepare for success.

I hope you enjoy the book and this content. Let me know how you find it and of course, please do leave an Amazon review if you've had a positive experience!

Warm wishes

Shola
